CONSTRUCTION NOTICE

ARLINGTON STREET

Starting Thursday, September 15, 2016, construction will begin on Arlington Street to prepare for new asphalt paving. The contractor, Lazaro Paving, will be working between Harvard Avenue and Hawthorne Street. On Thursday, the contractor will begin by grinding down the pavement approximately 1 ½ inches. Once that work is complete the contractor will begin repairing and replacing the manhole and drain structures prior to the final paving. During the work, parts or all of the street will be shut down and detours will be set. There will no parking on the street during the work day. Generally, the contractor will be working between 7:00 AM and 5:00 PM Monday through Friday.

The contractor will be working on two other streets along with Arlington Street. There may be a day or two in between the different phases that the contractor may not be working on the street. We ask that you stay off the street even though you don't see any activity, since they may be moving between streets during the day. We anticipate the work to take about week and a half from start to finish.

If you require assistance during the construction, feel free to speak with the contractor or the detail officer. Please call the City Engineer's office at (781)393-2474 if you have any questions regarding the work.

You will receive another notice prior to the day of the final paving.

Thank you for your cooperation.
