What is ARPA?

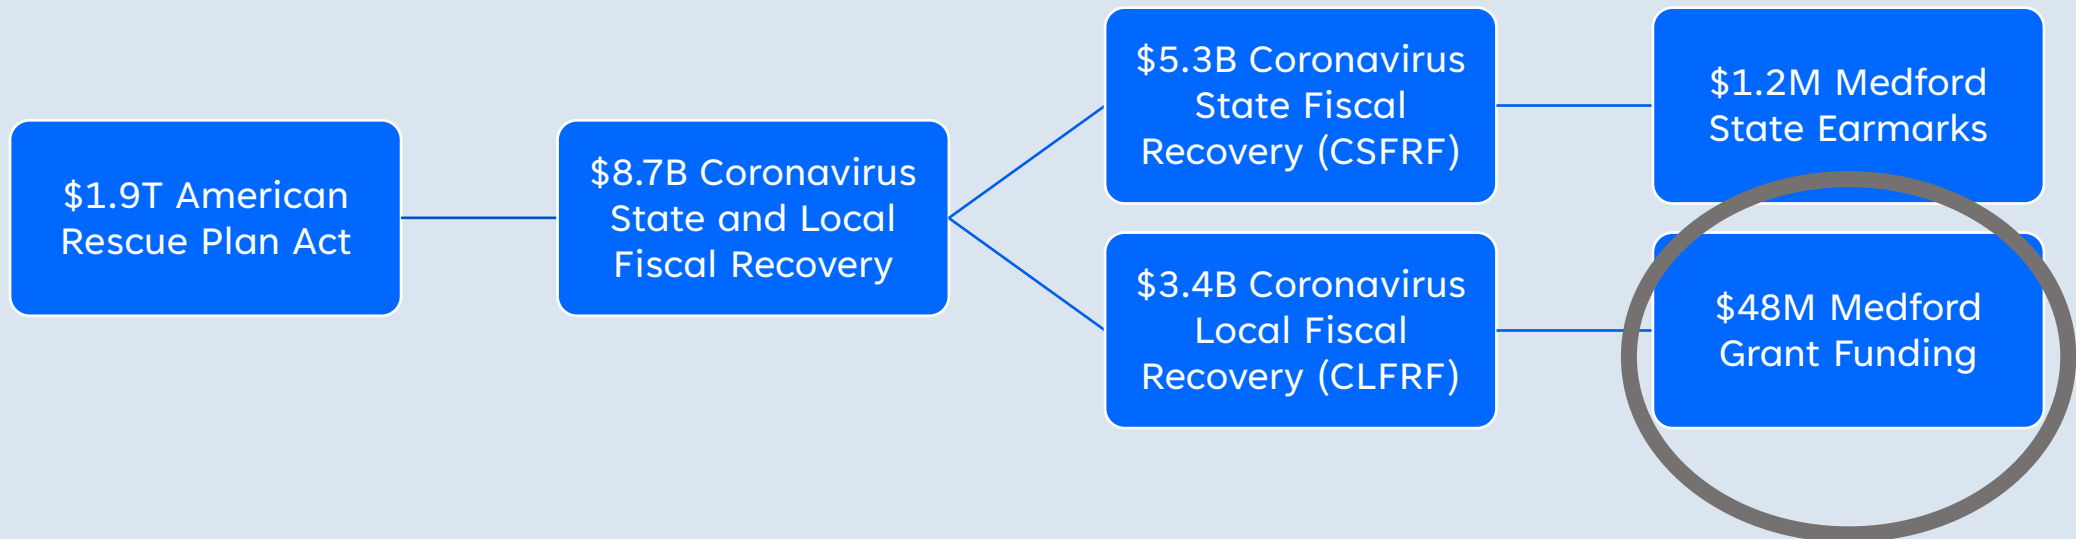

Spirit of ARPA

- Fight the pandemic and support municipalities, individuals, families, and businesses struggling with public health and economic impacts
- Maintain vital public services, even amid declines in revenue
- Build a strong, resilient, and equitable recovery by making investments that support long-term growth and opportunity.

Community Engagement

Community Engagement Strategy

The purpose of engagement:

- **Develop** a base of collective knowledge and learning about how ARPA funding can be used in Medford
- **Engage** key stakeholders in conversations around ARPA; Additional focus on populations hardest hit by the pandemic, its economic impacts, including communities of color, renters, low-income residents, and non-English speaking residents
- **Explore** community priorities for how the funding should be used
- **Share** with city staff what we heard were resident priorities

Engagement activities will focus on:

- Providing clear and accessible information about the ARPA funding; including what the money can and can't be used for and what the City's high priority initial emergency spending plans are
- Creating opportunities for Medford residents to share priorities and program suggestions with the City to inform further ARPA spending that best serves the community

Equity Priorities

Accessibility

- Develop an outreach team to conduct proactive outreach, surveying, and listening that meets people where they are
- Translate materials for a range of outreach formats designed to overcome participation barriers
- Clear information, “de-technicalized” language, analysis provided during engagement events
- Share with city staff what we heard were resident priorities

Targeted Outreach

- Meet communities where they are
- Priority is to focus on communities that:
 1. Can be underrepresented in public policy decision making
 2. Have resource needs that can be addressed through ARPA money
 3. Have been identified by the City as priority for involvement
